

Bee School 2017 – Registration
Beginner Beekeeping Course
By Norfolk County Beekeepers Association

Our course is designed for people who wish to gain an understanding of honeybees, bee biology and beekeeping practices in order to begin the fascinating art of beekeeping. Those who are just curious or are as yet unsure about beginning this endeavor are also encouraged to enroll. Classes will consist of nine weekly meetings. The classes are held on Tuesday night, beginning at 7:00 pm and ending between 9 and 9:30. Bee School runs from January until the end of April. Dates are: January 31; February 7, 14, 28; March 7, 14, 21, 28; April 4, and 11. Classes will be held at the Norfolk County Agricultural School auditorium, 400 Main Street, Walpole, MA. Classes will be in the form of lectures, presentations, and hands-on & group sessions. There will be least one field demonstration in April on installing packages and nucs of bees into a new hive.

Tuition is \$50.00 per person and \$10 for only one additional family member. The tuition includes handouts, beekeeping equipment supply catalogues, and nine classroom sessions. All family members attending must register and attend classes. Space is limited so we need to make sure that everyone who signs up plans on attending. In addition, the tuition covers the cost of a one-year membership in the club. *(If you are a club member in good standing and took bee school previously you can take the class as a refresher for free)*
